Tyler Douthit of Divert Pest Control gave the Classification presentation today. He explained that pests move when the weather changes and they are searching for water..

Tyler is a native Californian, raised in Orange County. He has been in the industry since 1994 and owned Divert since 2000.

Divert is a full service pest and termite control company. They exterminate or deal with ants, spiders, crickets, fleas, rats, mice, waterbugs, roaches, wasps, bees, termites, birds and all other types of pests. Seventy percent of his business is pest control and thirty percent is termites.

They do free termite inspections but will charge for an escrow report. They have competitive rates and quality workmanship on commercial or residential property. Divert is licensed, bonded and insured. He works with a bee keeper to remove hives if possible making him a "kinder more environmentally friendly pest control company." The best way to keep pests away is to be on a monthly program with Divert Pest Control.
