The EAOC Weekly

BREATHE AIR FREE OF MOLD, BACTERIA, AND VIRUSES WITH SCHAEF AIR AND IWAVE-R

In this week's morning meeting, our EAOC members were on the edge of their seats as Schaefer Air's David Schaefer explained the importance of keeping your heating and cooling equipment CLEAN!

One easy way to do this, is by installing the FIRST self-cleaning, no maintenance, needlepoint bi-polar ionization generator designed SPECIFICALLY for treating air in residential duct A/C systems: the iWave-R.

As air flows past the iWave-R, positive and negative ions actively purify the supply air, killing mold, bacteria AND viruses in the coil and living space.

The ionization process also reduces allergens, smoke and static electricity, as well as controlling odors and other particles in the air without creating ozone or any harmful byproducts.

iWave-R treats the air in ANY brand of residential duct air conditioning systems up to 6 tons (2400 CFM) in size with NO maintenance and NO replacement parts. Designed for universal mounting, the iWave-R typically installs inside or outside of duct, or it attaches magnetically near the indoor fan in the air handler.

iWave-R always works at peak performance, producing over 160 million ions/cc per polarity (320 million total ions/cc), more than any other ionizer product on the market. Its patented self-cleaning design includes a programmable cleaning cycle that can clean the emitter brushes every 1, 3, 5 or 10 days.

Setting up installation with the experts at Schaef Air is quick and convenient, and couldn't be easier! There's no reason to wait. Your body will thank you!

PRESIDENT'S MESSAGE

Hello EAOC!

Great meeting this week. Thank you so much for representing your business at our networking meeting.

It was David Schaefer of Schaef Air, Inc. that helped us to understand why it is so important to keep your air filters clean and to wash down your A/C and heating equipment. Dust and dirt are a few of the worst things affecting the performance of your unit. Keep it clean and the air filters changed—it will add years to the life of your equipment. Thank you for your educational presentation, David.

Solar Panels! We are looking for a solar company to add to our membership. If you know of a reputable and trustworthy solar company, please invite them to our meetings or share my or Katie's contact information with them, so we can share with them how profitable our networking group is.

Looking forward to seeing everyone next week. We have a great speaker planned. You won't want to miss it.

Take care and have a wonderful week ahead.

Best wishes,

Gizi
